ALEXANDRA ESCARPETA

MEET THE VISIONARY

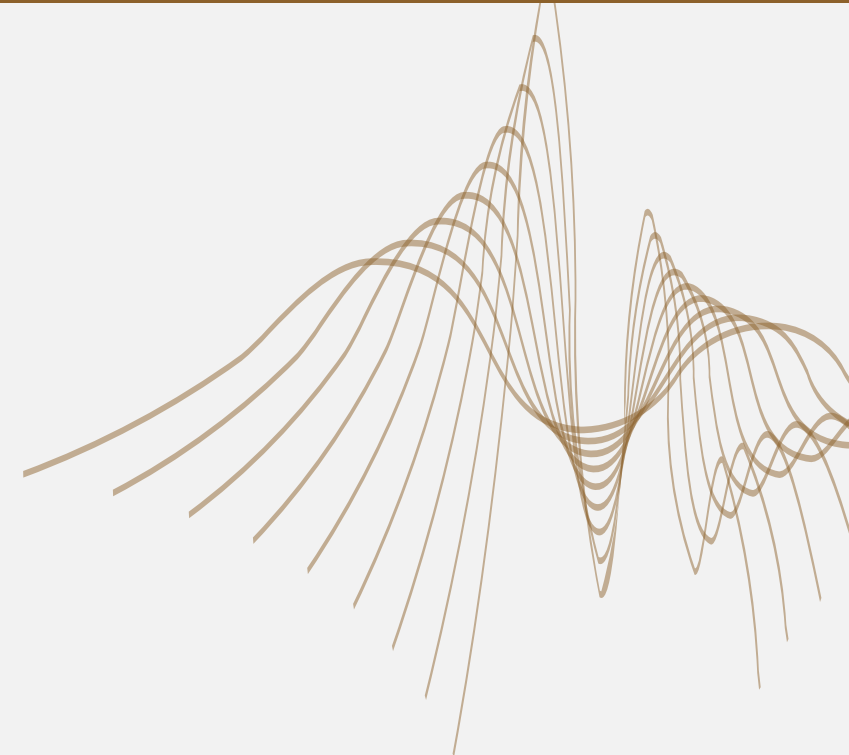

J. Alexandra Escarpeta is a visual artist, writer, entrepreneur and mother living in Costa Rica.

Prior to becoming a full-time artist, she developed and marketed medical devices for traumatic skeletal injuries. Learning about human biology fueled her passion for understanding the healing power of frequencies we all carry within us. To amplify the beauty of healing frequencies, she developed an original artwork technique using sound waves as the foundation.

“Organizations that center the wellness of the community help us awaken parts of ourselves that may otherwise be muted by the noise of a busy life. They play an important role in individual and collective spiritual growth and freedom.”

WE SPEAK TO HEAL

ART + PHILANTHROPY

WE SPEAK TO HEAL is dedicated to raising funds for organizations offering wellness support to brown and black identifying women and men.

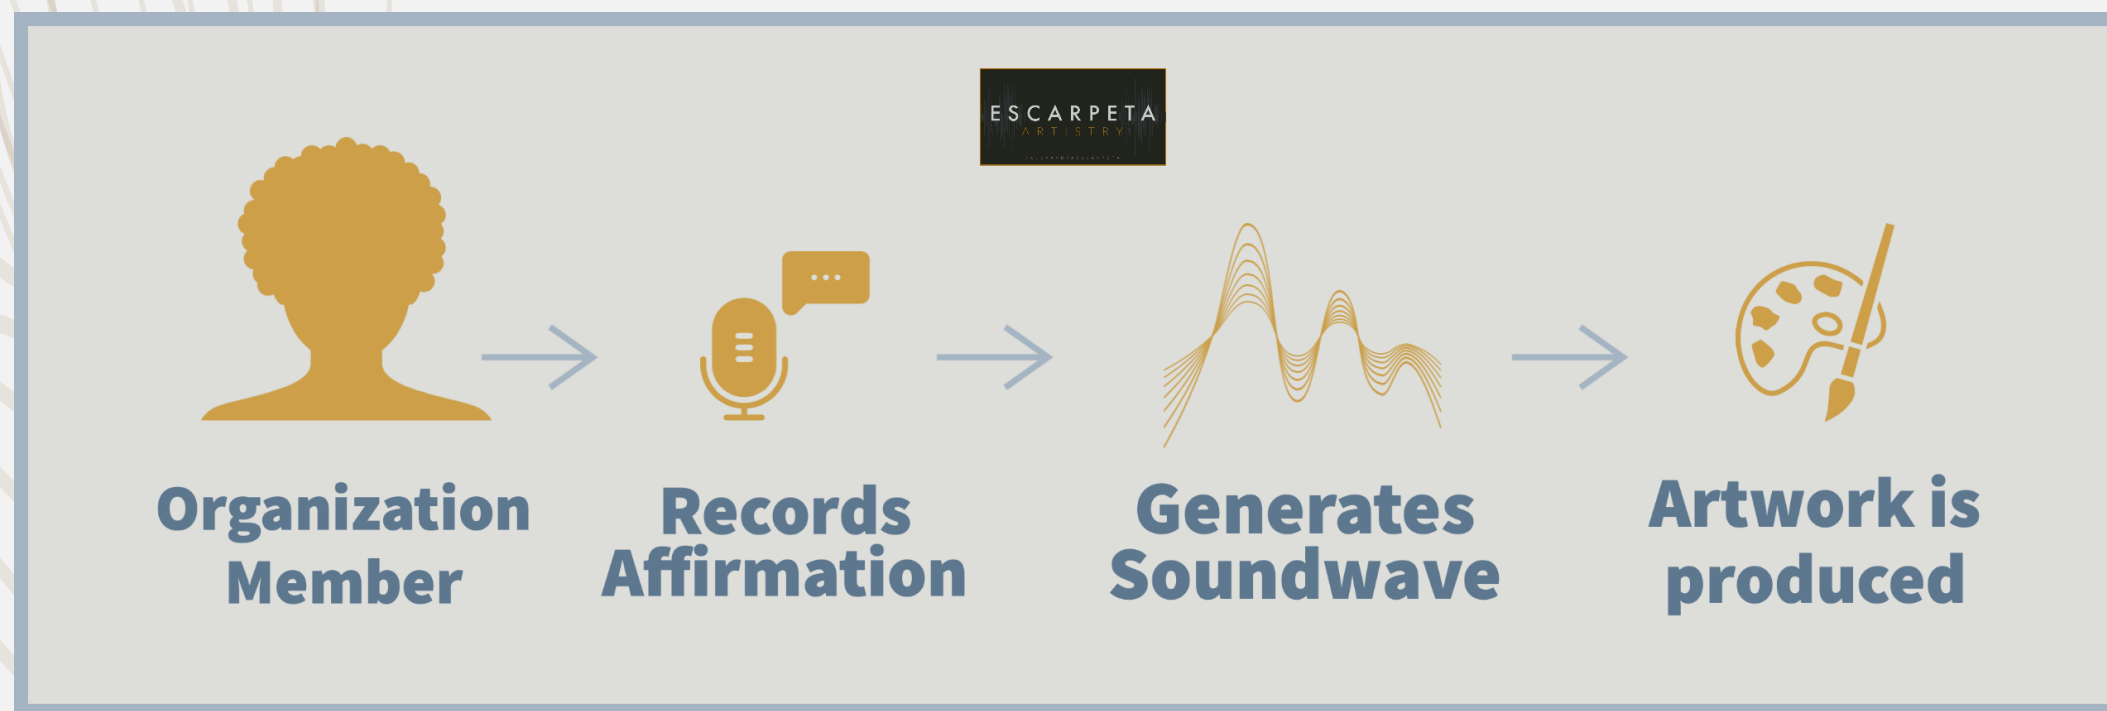

The benefiting organizations support their members in living healthier lifestyles, offer expansive healing experiences and help them explore their individual and collective possibilities!

An original artwork series is created for each featured organization in conjunction with their members. 30% of each sale goes toward scholarships for those who need financial support to participate in your organization's activities.

THE ARTWORK

A sound wave image is generated digitally, then reproduced by hand in an original artwork design.

Each work is unique and a direct reflection of your member's vibration while speaking an affirmation.
